TO THE

About the CTF Cluster

Cluster Aims:

CTF Cluster aims to demystify cyber security gamification and provide a safe environment for all members to build/enhance cyber skills. There are 3 key areas of benefit to members;

Accelerated Learning

Help to advance knowledge and capability dealing with Cyber Threats

Red & Blue Teaming

Help to enhance skills and understanding for internal security exercises

Competitions

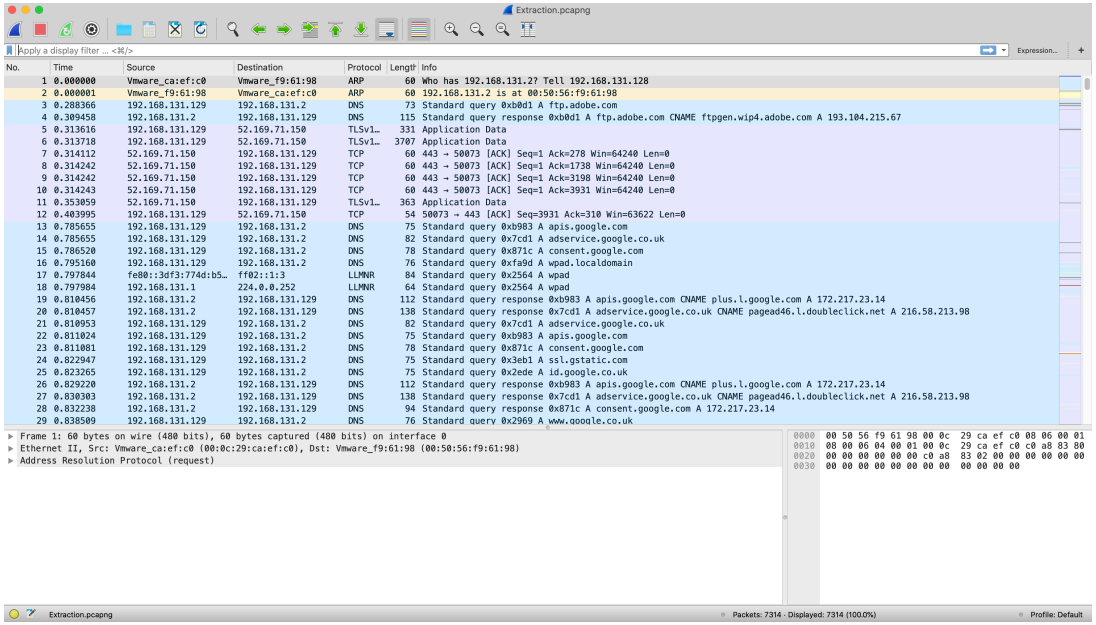
Help members to feel more confident about entering CTF style competitions

Typical Meeting Agenda:

Time	Activity
18:00	Welcome and introduction to the cluster (inc. What is a CTF)
18:15	Issue challenge for the session
18:20	Break into two groups (DIY Session I Guided Session)
19:20	Come together to review approaches and success
19:45	Round Up (News and Opportunities)

What is the Jupiter Rockets CEO's Date of Birth?

Massive THANK YOU to the SANS Institute for letting us use this Challenge from their CyberThreat 2019 event run in partnership with NCSC



What is the flag contained in the transferred .docx file?

Visit cyberwales.net
find the flag value our developers forgot to remove from the site?

Services	Ports
FTP	80
RDP	23
Telnet	3389
DNS	53
HTTP	21

What is the flag revealed once the above services have been matched to ports?

Next Meeting

When and Where:

Second Wednesday of every Month

South Wales: NCSA, University of South Wales, Newport

North Wales: North Wales Cyber Hub, Glyndwr University, Wrexham

Meeting Topic:

- Will be announced in the Eventbrite description of each meeting

What you will need:

- A laptop (preferably not your daily use machine)
- Ideally install VirtualBox or similar and whatever other tools you fancy
